

Stephen Kihuni, Software Developer

Muranga, Kenya | Mobile: +254717788354 | Email: stephenkihuni55@gmail.com

Social Profiles:

- GitHub: github.com/kihuni
- LinkedIn: <https://www.linkedin.com/in/kihuni/>
- Twitter: <https://twitter.com/SKihuni>

PROFILE:

I am passionate about leveraging my skills and enthusiasm for programming to contribute to dynamic and innovative projects. With a solid foundation in back-end technologies and a commitment to continuous learning, I am eager to grow and develop my expertise in building scalable and efficient server-side solutions.

SKILLS:

- Languages: Python, JavaScript
- Frameworks: Django, Node.js
- Databases: PostgreSQL
- Tools: Git, VS Code

EDUCATION:

Certificate in Software Development | ALX-Africa | Nairobi, Kenya | Oct 2022 - Mar 2023

Projects:

- Developed a CRUD application using Django, allowing users to create, read, update, and delete data from a PostgreSQL database.
- Implemented user authentication and session management features in a Django application, enhancing security and user experience.
- Created a RESTful API with Reactjs and CSS , enabling seamless communication between front-end and back-end systems.

Passion and Interests:

I am deeply passionate about software development and excited about the opportunities to learn and grow in the field of back-end development. I enjoy tackling challenges, exploring new technologies, and collaborating with others to create innovative solutions. Outside of coding, I enjoy participating in hackathons, attending tech meetups, and contributing to open-source projects.

Certifications:

Certificate in JavaScript | Lux Tech Academy | Nairobi, Kenya | Feb 2022 - Mar 2022

Mobile Development Certificate | Google Africa Scholarship | Online | Oct 2020 - Feb 2021

Certificate in Web Research, Image Annotation, and Work Readiness | Sama School | Nairobi, Kenya | Oct 2017 - Nov 2017
